Freestanding

Window Displays

The Free-standing version is a cost-efficient method of displaying illuminated posters in windows or interiors if fixing to ceilings, floors or walls creates an issue.

The "New" Fairfield freestanding unit is designed with flexibility in mind. The unit is designed to utilise the Wall Mounted Ultra bright LED Light Pockets™ which creates a superb halo illumination around the pocket. The pocket is then mounted to a bespoke fabricated back panel.

The options for finish on the back panel range from Acrylic, Solid Wood, Laminated MDF to a bespoke printed graphic / logo. Just contact us to discuss your requirements.

Combinations available to suit A2, A3 and A4 Light Pockets™.

A4 (Landscape), 1 Screen, Angled

Reference: FSA4L-1A

Dims: 450(w) x 762(h) x 483(d)

A4 (Landscape), 1x2 Screen, Angled

Reference: FSA4L-2A/SP

Dims: 450(w) x 1034(h) x 561(d)
